

# PACK 1015

## Full Moon Stroll and Telescope Sky Gazing!

### Sunday, November 13th, 2016

### 5 – 6:15 pm

Please join Pack 1015 on a short stroll along Robert Crown Memorial Beach. We will be meeting in the Beach parking lot (enter at intersection of Otis Drive's end and Westline Drive). We will walk southeast down the beach and will be looking at the rising Hunter Moon (can you say huge!) as it rises in the East. Moonrise will be at 4:51 PM. We'll also be able to see a beautiful sunset behind San Francisco at 5 PM. What a combination! After we hike down the beach, we'll turn around and retrace our steps back to the parking lot. Scott Hildreth has offered to bring a powerful telescope and his expert knowledge to assist our sky gazing during this event!

#### What to consider bringing:

- Scouts should wear their uniforms or Scout T-shirts/sweatshirts
- Water and a snack if desired
- A jacket or sweatshirt
- A change of shoes for after the hike
- A flashlight or headlamp
- Binoculars
